# SERVICE

# LETTER

Service Letter No. 466A

(Supersedes Service Letter No. 466)

August 8, 1967

**SUBJECT:**

Stewart-Warner Heater Modification Kit,  
Part Number 756 995

**MODELS AFFECTED:**

PA-23-250, PA-E23-250 Aztecs, Serial Nos. 27-  
2505 to 27-3153 incl.

In order to improve cabin heater operation and to better regulate cabin temperature it is recommended that Heater Modification Kit, part number 756 995, be installed on the above listed aircraft.

Kit 756 995, which consists of the necessary parts, instructions and sketches is now available and may be obtained through your Piper distributor.

## "DISTRIBUTORS"

A Warranty and Credit Claim may be submitted for this kit. However, the heater fuel control valve, part number 753 117 (Stewart Warner No. G719552), which is replaced when Kit 756 995 is installed must be returned before credit will be issued.

Credit for Kit 756 995 will not be issued on any claims received after January 31, 1968.
