Service Letter No. 255

October 24, 1955

TO: All Distributors, Dealers and Owners

SUBJECT: Cabin Door Handle Bracket

MODELS AFFECTED: All PA-23, serials 23-1 to 23-249 inclusive

The cabin door handle bracket on new production airplanes has been modified to provide a lock stop which prevents the possibility of the door handle being pulled out of position when it is locked.

The revised bracket, part number 18068-00, can be installed on the airplanes listed above and can be obtained through your Piper distributor at a list price of \$4.44. The installation requires about six hours labor and installation instructions are furnished with each part.

Very truly yours,

PIPER AIRCRAFT CORPORATION
