LETTER

Service Letter No. 313

January 6, 1959

To: All Distributors, Dealers and Owners

SUBJECT: Elevator Control Tube Nylon Sleeve Installation Kit

MODEL AFFECTED: PA-23 Apache, Serial Numbers 23-1 to 23-1533 incl.

We are pleased to announce the availability of an additional modification for the Apache. This is in line with our policy of making available to Apache owners improvements which will tend to increase the efficiency of the airplane and also to lessen aircraft maintenance. A brief description of this modification is as follows:

1. Elevator Control Tube Nylon Sleeve Installation Kit

This kit includes a sufficient amount of nylon sleeves and related parts for the modification of one airplane. These sleeves are installed on the elevator control tube at the point where the tube passes through the nylon rub blocks for the purpose of lessening friction wear. Part number of this installation kit is 754 215, unit price \$3.60 and this kit is available, in quantity, for immediate delivery through your Piper distributor.

Very truly yours,

PIPER AIRCRAFT CORPORATION
