

SERVICE

LETTER

Service Letter No. 291

June 5, 1957

TO: All Distributors, Dealers and Owners

SUBJECT: Wheels and Brakes

MODELS AFFECTED: PA-23's - Serials 23-1 to 23-863 inclusive

We are pleased to announce that a kit is now available in limited quantities for converting the B. F. Goodrich wheels and brakes on the above listed airplanes to the new type Cleveland wheels and brakes which are currently being used in production.

Complete conversion details are contained in the kit, however; as a matter of information, the conversion requires a complete change of wheels, brake assemblies and master cylinders as well as minor changes to the lines. The list price of the kit is \$240.00 and requires about 8 hours to install. Installation of Kit 754 145 will automatically cancel the compliance requirements of B. F. Goodrich Bulletin No. 102 and Addendum A.

For those who have been experiencing wheel breakage it will be an excellent opportunity to not only eliminate this problem but also to obtain a complete new brake system at a very reasonable price.

Very truly yours,

PIPER AIRCRAFT CORPORATION

A handwritten signature in dark ink, appearing to read "Rolland Boardman", written over the typed name.
